

Araya Tsai

Front-End Developer

SELECTED PROJECTS

Front-End Developer

2025 – 2026

PROJECT | FOOD ORDERING APPLICATION (MOOM AROI)

Tech Stack: React Native, Tailwind CSS

- Developed responsive UI components for a mobile food-ordering application using **React Native and Tailwind CSS**, supporting consistent display across varying screen sizes
- Assisted in translating **UI/UX design concepts** into functional, **component-based** mobile interfaces in collaboration with the design team
- Contributed to testing **cross-platform** responsiveness to help ensure a consistent user experience

Front-End Developer

2025 – 2026

PROJECT | WEB GLOW TOGETHER

Tech Stack: React, Tailwind CSS

- Built responsive web components using **React.js and Tailwind CSS**, focusing on maintainable and **reusable code structure**
- Supported the front-end team in aligning design specifications with development output through regular review and feedback
- Participated in **cross-functional collaboration** to refine UI details prior to deployment

INTERNSHIP EXPERIENCE

Developer Intern | Zenith Comp Co., Ltd.

2026 – Present

PROJECT | WEB CHECK-IN / CHECK-OUT

- Develop a web-based attendance management platform using **Next.js**, integrated with a facial recognition system for employee check-in and check-out
- Assist in designing **database integrations** to support automated time-tracking and attendance reporting
- Collaborate with the mobile development team to help synchronize data between web and mobile platforms
- Support the maintenance of an administrative dashboard, contributing to improved usability for HR staff monitoring attendance records

WORK EXPERIENCE

UX/UI Design (Trial Period) | 04 June 2026 – 31 August 2026

SYNNERY CORPORATION (THAILAND) CO., LTD.

- Assisted in designing user interface wireframes and prototypes using Figma, focusing on usability and visual consistency
- Applied **AI-assisted design tools** to accelerate the ideation and prototyping process, while continuing to build proficiency in production speed and workflow efficiency
- Gained hands-on exposure to real-world design review cycles and cross-functional feedback in a professional design environment

EXTRACURRICULAR & LEADERSHIP

- Participant, Young Thai Science Ambassador (YTSA)** – Developed public speaking and storytelling skills through the "Science Communication" track, translating technical concepts into accessible content for general audiences.
- Competitor, ETDA Bootcamp Hackathon** – Collaborated with a cross-functional team under tight deadlines to ideate and pitch technology solutions.
- Academic Presenter, Bangkok University** – Regularly presented technical workflows and project concepts to faculty and peers.

PROFILE SUMMARY

Final-year Computer Science student at Bangkok University (graduating June 2026) with practical front-end development experience in **React.js, Next.js, JavaScript, and TypeScript**. Experienced in building **responsive, component-based user interfaces** and integrating front-end applications with backend databases through **RESTful API** connections. Seeking to contribute a solid technical foundation and a continued commitment to learning to a Front-End Developer position.
